

CLIENTS & FRIENDS

Approaching twenty-five years in business, with hundreds of successful manufacturing searches completed, our practice groups continue to work with:

- Privately-held businesses
- Non profit organizations
- Healthcare/Insurance Corporations
- Educational institutions
- Foundations

All have become increasingly dominant in our business mix.

The addition this year of Ruthann Liagre to lead our healthcare segment and Eric Hohauser in primary research practices, has enabled us to meet the increasingly complex assignments of our adapting clients.

Our global reach as an IIC Partner, affords us immediate resources on six continents as our clients expand to meet the distribution requirements of today's competition. Known as the most comprehensive, personal and professional service provider in the executive search industry, we will continue to earn your confidence one assignment at a time.

Harvey Hohauser
